

GU USES SPECIAL ENVELOPES TO GUARD QUESTION PAPERS

Many academic institutes in the city are using tamper-proof envelopes to safeguard various documents including question papers, academic papers etc from being leaked or tampered with.

The growing usage of internet and social media platforms among students has forced institutes to look for alternatives to curb menace of paper leaking.

Gaurav Vora, director, Dynaflex, who

created tamper-proof envelope said, "We are providing tamper-proof envelopes to Gujarat Technological University, Gujarat University, Delhi University, Narsee Monjee (Mumbai), Manipal Education, Orissa Education Board among others. The cost of procuring these envelopes is less than that incurred on re-conducting exams."
